Experience

Freelancer – 05/2019 - present
Web Development

- Developed a fully functional website for an environmentally green company whose cause was to create awareness on preserving our ecosystem.
- Created a functional WebAPI with React.js and ASP.NET as a college assignment.

Software Development

- During multiple college classes I've created numerous software applications which implemented an efficient object oriented back-end code with Java on JDK and a MySQL database, as well as well-functioning controllers for web APIs with C# on ASP.NET.

Adobe Creative Cloud Package

- Entirely branded multiple companies which included logos, web design in some cases, business cards, marketing templates using Photoshop, Illustrator and XD.
- Edited a few funny videos for YouTube for my own satisfaction and professional improvement.

Tutoring – 01/2019 to 03/2020
Balkan Sunflowers (BSFK)
Worked as a tutor to assist students with elementary subjects such as mathematics, English, Albanian, etc.

Social Media Manager – 05/2020 to 10/2020
AVIA Center
Managed the social media and marketing campaigns also designed the advertisements of AVIA Center.
